

PRODUCT REFERENCE: *PACE*[®] N 54/14

DESCRIPTION: *PACE*[®] N 54/14 is a black masterbatch based on a polyamide 6 carrier and containing a black solvent dyestuff (nigrosine) in combination with a medium colour, high jetness, furnace carbon black.

APPLICATIONS: Black polyamide mouldings and compounds requiring good surface finish and high jetness coloration. *PACE*[®] N 54/14 can give higher impact performance, particularly in glass fibre reinforced polyamide 6, than systems relying solely on carbon black. Conversely, it will exhibit superior UV stability compared with systems relying solely on Solvent Black 7.

ADDITION RATE: 1 to 4 % depending on application.

PIGMENT TYPE: Solvent black 7 (nigrosine)
medium colour furnace carbon black

TYPICAL PROPERTIES:

Pigment content: 30 %

Bulk density: 600 kg.m⁻³

Packaging: *PACE*[®] N 54/14 is normally packed in 25kg polyvalve bags. It should be stored in a clean dry area.

For Health and Safety information, please refer to the appropriate COLLOIDS Material Safety Data Sheet.
